RICK SHEWEKAH, REVIEWER

SOURCE ID: 21-035-00034

AGENCY INTEREST #: 504

ACTIVITY ID: APE20060001

SOURCE DESCRIPTION:

Briggs & Stratton manufactures small internal combustion gasoline engines and engine components (SIC 3519, NAICS 333618). Primary manufacturing activities include aluminum die-casting, ferrous and non-ferrous machining, painting, stamping, and engine assembly. Manufacturing activities have been running at the facility since 1984. The facility is comprised of one building that houses manufacturing, assembly, and office operations.

The permittee submitted a Title V operating permit application to the Division in June 2001. The permit application was updated and re-submitted on February 10, 2006. During review of this revised application, the permittee requested voluntary regulated pollutant emission limitations and the permit to be issued as a Conditional Major permit pursuant to 401 KAR 52:030. This permit is issued as the initial Conditional Major permit for the source.

PUBLIC AND U.S. EPA REVIEW:

On January 10, 2008, the public notice on availability of the draft permit and supporting material for comments by persons affected by the plant was published in *The Murray Ledger & Times* in Murray, Kentucky. In addition, notification of the issuance of the draft permit was sent to the U.S. EPA on January 28, 2008 via e-mail. The public comment period expired 30 days from the date of publication. No comments were received during this period. The permit is now being issued final.
